ABOUT ME

I am a mid-level MERN Stack Software Engineer with strong experience in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. I specialize in building scalable backends, creating responsive user interfaces, and integrating third-party APIs. Passionate about clean code and performance, I thrive in collaborative, Agile-driven environments.

WORK EXPERIENCE

MERN STACK DEVELOPER – DECRYPTEDLABS – 20/08/2025 – Current – KARACHI, PAKISTAN

Designed and implemented a **micro-frontend architecture**, enabling independent deployment, better scalability, and team-wise separation of large frontend applications.
Developed a full-stack **AI voice generation platform** (similar to ElevenLabs), building both **frontend and backend**, including user authentication, audio generation workflows, and scalable APIs.

JUNIOR MERN STACK DEVELOPER – SRU BUSINESS GROUPS – 08/2024 – 18/08/2025 – KARACHI, PAKISTAN

- Developed and maintained full-stack web applications, managing both frontend (React.js) and backend (Node.js/Express) components.
- Created and integrated RESTful APIs for authentication, product listings, sales processing, and order management using MongoDB and Mongoose.
- Managed cloud infrastructure on AWS, including EC2, S3, and Route 53, to ensure high availability and performance of deployed applications.

JUNIOR SOFTWARE ENGINEER – INNOVATIVE SOLUTIONS – 09/2023 – 06/2024 – KARACHI, PAKISTAN

- Developed interactive dashboards using React and UI libraries like Material-UI, Ant Design, and React Bootstrap, enhancing user engagement.
- Implemented secure RESTful API communication with refresh token-based reloading, improving application reliability.

EDUCATION AND TRAINING

2016 – 2017 karachi, Pakistan
SSC MATRICULATION Oxford Cambridge school

2018 – 2019 karachi, Pakistan
HSC INTERMEDIATE Govt College For Men Nazimabad

2020 – 2024 karachi, Pakistan
BSSE (SOFTWARE ENGINEERING) University Of Karachi (UBIT)

PROJECTS

Simpily Cavapoos

Developed SimplyCavapoos.com, a responsive Cavapoo puppy website with secure auth, e-commerce, and Google Maps API integration for location-based features.

Link https://simplycavapoos.com/

Trialtemplate

Developed TrialTemplate.com using React.js, enabling interactive and editable presentations for legal proceedings.

Fannit

Fannit is a Next.js-based dashboard for sales and KPI analytics, offering fast performance and lifetime updates.
